Source candidates

Schematic example

s1 [A]	A storm closed the main road near the station early Tuesday.	60 chars
s2 [A]	The main road was shut after that storm.	40 chars
s3 [B]	**Bus services resumed** on Tuesday morning.	40 chars

A: road closure **B: service resumption**

Output budget: 100 characters.

Overlapping choice

s1 [A]	A storm closed the main road near the station early Tuesday.
s2 [A]	The main road was shut after that storm.

60 + 40 = 100 chars — A repeated; B omitted

Complementary choice

s1 [A]	A storm closed the main road near the station early Tuesday.
s3 [B]	**Bus services resumed** on Tuesday morning.

60 + 40 = 100 chars — A + B retained
